Hi Linda, you're very welcome; I thought it was a good discussion. We do plan to complete the statistical evaluation in Q1; I'm not sure what the time period will be, but I can find out if that would be helpful. We typically post our documents to the web near the end of the 30-day period, which would be a month or so before our next call, but I could see about posting it early if that would help. I'll check with HDR generally about the early April timeframe for next call, then we can look at calendars for potential dates and times.

Jennifer McCarter, R.E.M.

EXTERNAL - STOP & THINK before opening links and attachments.

Jennifer,

Thank you again for your time and the time of your contractors and Xcel staff during our call on Tuesday. I have just a couple of questions. When will you be posting to your website the annual groundwater report for 2020? I believe you stated that it was now part of the operating record. Will this latest report include a statistical analysis of the groundwater data; and, if so, for what timeframe?

We would like to schedule a call with you in early April, if you think your contractor will have been able to receive and evaluate the groundwater monitoring results for the newest set of wells by then.

Thank you.

Linda Jacobson
